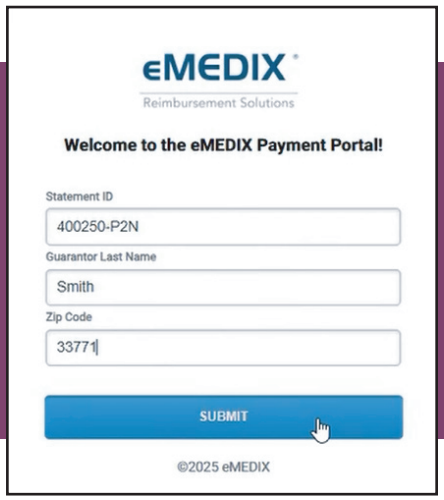
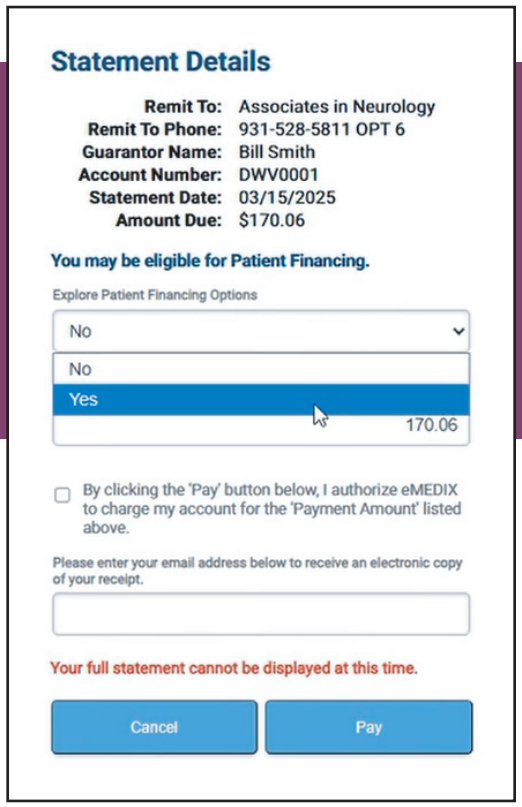
Convenient patient financing

New this year, you can offer patients a helpful financing option, powered by our eMEDIX clearinghouse and a seamless integration with CGM PAY.

With just a few clicks from your eMEDIX dashboard, you can connect patients to our third-party financing option, enabling them to manage out-of-pocket costs with a flexible payment plan. Patients enjoy greater access to care while your practice gets paid up front, reducing collection delays and administrative burdens.

The entire process is secure, efficient, and easy. Boost patient satisfaction and accelerate revenue velocity with help from CGM MEDISOFT and the eMEDIX clearinghouse.





Improved patient statement delivery preferences

CGM MEDISOFT v30 gives you more control over patient statements by letting you set individual delivery preferences for each patient—email, text, or paper—that seamlessly carry over to the eMEDIX clearinghouse.

With this enhancement, your practice can meet patient expectations for convenience and keep communications clear.

Once preferences are set, our eMEDIX statement service automatically delivers statements based on each patient's choice, reducing administrative hassle and improving satisfaction. This streamlined process ensures that your statements reach patients in their preferred way, supporting faster payments and a better overall experience.

Easier online patient payments

With CGM MEDISOFT v30, you can add a QR code to patient statements, making payments easier than ever. When patients scan the QR code, they're instantly taken to a secure, mobile-friendly online payment page—no manual entry required.

This convenient feature, available in conjunction with our eMEDIX clearinghouse, streamlines the payment process, reduces barriers for patients, and helps your practice get paid faster.
